at Regent International College, Gampaha
2010

Skills & Tools

UI/UX & Product Design

Designing user flows, wireframes, prototypes, responsive interfaces and product experiences in Figma, aligned with modern frontend frameworks, CSS systems and reusable component libraries

Design Systems & Accessibility

Building and maintaining reusable components, variables, tokens and shared libraries, with WCAG 2.2 AA treated as the minimum accessibility standard across design and developer handoff

Web Technologies

Hands-on experience with HTML, CSS, Tailwind CSS, WordPress and Sanity CMS, with experience building in React and Next.js using AI-assisted development workflows. Familiar with GA4, Search Console, on-page SEO, structured data, Lighthouse optimization and user-behaviour analytics tools

AI-Assisted Workflows

Using Figma Make, Claude Design, ChatGPT, Skills and MCPs for research, ideation, prototyping, content and documentation

Visual & Motion Design

Creating brand, digital and motion content using Photoshop, Illustrator, InDesign, After Effects and Premiere Pro

Professional Experience

- Senior UI/UX Designer**
at Villvay Systems (Pvt) Ltd., Sri Lanka.
April 2024 to August 2026

Designed product experiences across the B2B eCommerce websites and mobile apps for Würth Baer Supply and Würth Louis and Company, the consumer-facing MFactor website, and Villvay Search as a standalone product. Improved customer journeys by simplifying product discovery, pricing, configuration, stock checking and purchasing flows across the Würth platforms, while making provider discovery and comparison clearer on MFactor through better information hierarchy, search and filtering. Conducted UX research, translated requirements into flows and prototypes, and worked closely with frontend teams through implementation and QA. Maintained Figma design systems with reusable components, variables and design tokens, while incorporating accessibility throughout the design process. Used Figma Make, Claude Design, ChatGPT, Skills and MCPs across research, ideation, prototyping and documentation.

- Multimedia Engineer**
at Tracified (Pvt) Ltd., Sri Lanka.
March 2022 to February 2024

Worked on UI/UX and product design for Tracified's web and mobile products, translating requirements into user flows, wireframes, interactive prototypes and high-fidelity interfaces. Collaborated closely with development teams to improve usability, accessibility and overall product experience. Also contributed to branding and digital content, bringing my visual design background into the product design process.

- Designer - Remote**
at Kimp.io (Doto Media inc.), Canada.
June 2020 to March 2022

Delivered design work for clients across the US, UK and Canada, covering branding documents, logos, social media graphics, web visuals, slide decks and print artwork. Used Photoshop and Illustrator for graphics, InDesign for book and editorial layouts, and Figma for UI design. Worked to tight turnaround targets inside a high-volume remote design team.

- Digital Designer**
at zMessenger (Pvt) Ltd, Sri Lanka.
November 2019 to June 2020

Produced digital and printed artworks for key brand clients, adhering to corporate brand guidelines and moodboards to deliver high-quality results within demanding timelines. Proficiently utilized Adobe Photoshop, Illustrator, After Effects, and Premiere Pro for graphic and video creation. Utilized Bannersnack platform for HTML/GIF web banners and engaged in experimental UI/UX design projects using Adobe XD.

Other Experience

Web Administrator/Visiting Lecturer

Nagananda International Institute for Buddhist Studies

2015 to 2018

Designed and maintained the official website (Joomla) and social media presence. Also taught Computer Literacy subject for undergraduate students.

Freelance Digital Strategist/Designer

Alias - Elements Sri Lanka

January 2018 to September 2019

Managed website, visual design and digital marketing projects for clients in Sri Lanka and Australia from scoping through delivery. Designed and built WordPress and static HTML/CSS websites, produced digital and brand assets, and managed campaigns through Meta Ads Manager and Google Ads.

Selected Personal Web Projects

dileepa.design - Portfolio Website

Designed and developed my personal portfolio website to showcase selected design work, break down my design workflows and document other projects through detailed write-ups.

Stack: Next.js, Sanity CMS, Tailwind CSS

Repo: <https://github.com/dileepamg/dileepamg-portfolio>

Live: <https://dileepa.design>

CrisisPortal - Emergency Resource Directory

Co-built a centralized platform to organize emergency and relief information that was otherwise scattered across different sources. Developed with a three-person team and launched quickly during an active crisis.

Stack: Next.js, Tailwind CSS

Live: <https://crisisportal.org>

SriLankanism - Community Web Application

Co-created a community platform for documenting Sri Lankan slang, expressions and meme culture, with public submissions, voting and moderated content. Worked as part of a three-person team across concept, UI/UX, development and refinement.

Stack: Next.js, Tailwind CSS, NeonDB, Prisma

Live: <https://srilankanism.com>

Other Web Projects

Other web projects I have done under the alias Elements Sri Lanka are showcased in the Elements website. Majority of these are WordPress websites including the Elements website itself.
